DETAILED ACTION

(1). Applicants' Remarks filed on 04/05/2007 has been received.

Claims 1-11,13,15-16, 24 and 26 are cancelled previously.

Upon further discussion, consideration of the Remarks filed on 04/05/2007, the unexpected results provided by applicants on 10/16/2006 need not to be cited in the instant claims.

Allowable Subject Matter

(2). Claims 12, 14, 17-23, 25 and 27 are allowed.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

The instant application is allowable, mainly in view of the Declaration provided by Applicants on 10/16/2006 to the fact that conjugated diene rubber of isoprene and butadiene are not equivalent as used in forming the tetrablock copolymer with monoalkenyl arena for the bituminous composition. According to the expected results shown in the Table 2 of Declaration on 10/16/2006, the SISi block copolymer (Polymer A in Table 2 of Applicants' Specification) is superior to the SBSb block copolymer such as T-peel at 5 °C as well as at 21 °C (Table 2 of Declaration). Although closest prior art references Vonk et al (US004904713) teach the use of conjugated diene of butadiene, isoprene in the tetrablock copolymer (Col. 2, line 31-33), Agostinis et al (US004874821) teach the tetrablock copolymer characteristics contributed by weight ratio between two conjugated diene blocks, neither of them disclose the difference when the isoprene is used as diene rubber instead of butadiene in tetrablock copolymer. Therefore, instant claims 12,14,17-23, 25 and 27 are patentable over prior art references cited hereinabove.

As of the date of this Notice of Allowability, the Examiner has not located or identified any reference that can be used singularly or in combination with another reference including prior art above-cited to render the present invention anticipated or obvious to one of ordinary skill in the art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
